**Summary of reasons  
for classification:**

The computer image file *my do079.cam* is classified as:  
Objectionable.

The publication is objectionable because it promotes and supports the exploitation of young persons for sexual purposes.

The computer file contains an image showing two partly-naked boys in their early to mid-teenage years masturbating together on a couch. The image is intended for sexual titillation and arousal. Such images encourage viewers to see young boys as ready for adult forms of sexual activity and available for adult sexual gratification. The effect is to validate a sexual interest in young persons and encourage their sexual exploitation.

The classification of this publication interferes with the freedom of expression as set out in the New Zealand Bill of Rights Act 1990. However, this is an outcome that is consistent with Parliament's intention in s3(2) of the Films, Videos, and Publications Classification Act 1993 that publications which promote and support the exploitation of young persons for sexual purposes will be deemed objectionable. The classification reflects the concern of a free and democratic society and is a reasonable and demonstrably justified limitation on the freedom of expression.
